## Personal Profile

I have always been deeply passionate about software development and technology, driven by a fascination with how innovative solutions can transform lives and businesses. My journey into this field is built on a solid foundation of transferable skills gained from over four years of experience as an Administrative Assistant and Logistics Manager. These roles have honed my problem-solving abilities, organizational expertise, and adaptability—qualities that are essential for success in the tech industry.

I am currently in the final stages of a 12-week intensive Digital Skills Bootcamp in Software Development with JustIT training. Through this program, I am building on my existing skills and developing new ones to establish a career as a developer. I have completed several projects using HTML, Python, and JavaScript, which are showcased in my GitHub portfolio, demonstrating my ability to create functional and responsive applications.

Looking to further develop my technical skills as a Software Developer, I aim to apply my analytical and problem-solving skills to assist in the completion of complex projects while learning new technologies along the way. I am excited to combine my growing technical expertise with my diverse professional experience to contribute to a team that values innovation, collaboration, and continuous learning.

**Commented [LC1]: It's important when listing your Key Skills that you link them with the requirements of a Software Role / Software Developer!**

Recruiters will be looking to see how you match the role you applied for, so this information needs to be on the first page of your CV !

What are your own personal key skills, why are you a good match for the role?

***Technical Skills***

***Soft Skills***

## Interests, Hobbies and Achievements

**Hobbies: Reading, Writing, Travelling and Personal Training, Learning new languages**

**Additional Info:** Diploma in Personal Training and Fitness Instructor (2018)

**References available upon request**

**Commented [LC3]:** It's always good to share with a potential employer any interesting facts about you, hobbies and interests. Don't just list or bullet point them but write in a short paragraph.

What specific social activities do you take part in outside of work?

If you have any Software related hobbies then include them 😃

**Commented [LC4]:** Here you should consider anything else that
differentiates you from the competition.

You should consider the following, do you have
Professional qualifications, any free online short courses that are relevant
Do you speak other languages
Do you have a UK driving licence
First Aider
Security cleared (CTC) (SC)
DBS
